

KDADS HCBS Final Rule Stakeholder Call

10/20/21

Noon call (40 Participants)

- 1) Question/Comment:** On the HCBS settings public comment page there aren't very many settings listed. How are you supposed to provide a comment if they aren't listed?

KDADS: You might be looking for a setting that might not be there. There are only 69 settings on there for Heighted Scrutiny categories 1 and 2. The other settings you are looking for must have fallen in category 3, so those might not be there. There will be an additional list added to those settings at a later time for category 3 settings.

- 2) Question/Comment:** I am an operator of a home plus. When I go into my account the name as the provider is still not mine. I took over this business and I was concerned about the name for the NPI to be the former owners.

KDADS: Go ahead and send me an email about that, I am working on that. My email is latonia1.wright@ks.gov.

Adjourn

Evening call (10 Participants)

- 1) Question/Comment:** There were no questions or comments on this call
