

KDADS HCBS Final Rule Stakeholder Call

2/16/2022

51 Participants

- 1) **Question/Comment:** We submitted some new sites since the initial submission. We have not heard anything back yet. Russell told us that nothing was in place. Is there an update on what this looks like?

KDADS: This will be the HCBS portal. You have done your part. We are working on building this portal and anticipate July 1 deadline to have portal the open.

- 2) **Question/Comment:** About 9/1 date, everyone should have a compliance determination by then. Is this just on the site (CC) or will we receive a formal letter?

KDADS: We are going to give you some type of certificate or letter. You will have something official.

- 3) Will there be spring training tours for organizations?

KDADS: Most likely KDADS is looking at Spring/Summer trainings but not tours. We will be focusing on those who need assistance. If you want one-on-ones with you or your affiliate provider, KDADS is open to doing that. Training will be focused on transition, the portal, and ongoing monitoring training. If you are close to compliant, please make sure you're focusing on that in the meantime.

- 4) I have a couple locations with Heightened Scrutiny still out there. I went in and uploaded Google Maps as requested by the team. They told me to go to the remediation tab. I'm not sure what to do.

KDADS/WSU CEI: Evidence for C1 and C2 will need to be uploaded directly to the HS tab. This response was technical and this issue was resolved by directing person to the HS tab and asking them to email hcbs.team@wichita.edu and offering them chat solutions. Could not be solved on this call.
