

KDADS HCBS Final Rule Stakeholder Call

6/15/2022

Noon Call (59 Participants)

- 1) Question/Comment:** My site is marked as compliant but it took me so long to start remediation due to moving. We remediated for the old site. Once the portal opens, what is required of me?

KDADS: You will remediate for the new setting. When the portal opens, you will put in the new address. If it is run the same you will resubmit what was found compliant. You will have to do a check for Heightened Scrutiny on that new location. You will have to resubmit everything, but if you are running your site the same you should fly right by. You would also have a new deadline for that new setting. It would be March 17, 2023.

Adjourn

Evening call (4 participants)
