

Below is a list of providers from the Community Connections Portal that are compliant or waiting on a final heightened scrutiny (HS) determination from CMS. This list does not include new providers or new settings in the HCBS Compliance Portal that opened on 7/1/22.

If a setting is waiting on a HS determination – only – the provider has done all that it can to this point and does not have to participate in transition of the setting at this time.

Please contact latonia1.wright@ks.gov if you have a question regarding this list or the status of a specific provider or location. Due to HIPAA considerations, specific addresses will not be published.

#	Provider	HCBS Final Rule Status
